

# Product Information

**AMSWin Software for your AMSOIL** AMSWin has been the easiest way to automate the bookkeeping in your AMSOIL dealership for the past 15 years. AMSWin was developed in 1988 by an AMSOIL dealer to help him run his own dealership, and it has been growing and improving ever since. Now more than 400 AMSOIL dealers are using AMSWin to improve their dealership and that number is growing every week. AMSWin can help you manage your Customers and fellow dealers, warehouse orders, commission transfers, business expenses, inventory and tax related information. Join the AMSWin family today and spend less time bookkeeping and more growing your dealership!

**AMSWin Video Training** AMSWin is easy to learn, but there are so many features that even the most computer savvy users say that it takes a while to make full use of the software. In many cases, users don't even take advantage of all of the help that AMSWin provides. This four-volume training package is designed to speed up the learning process. All of the exciting features of AMSWin are described in great detail and then demonstrated while you watch. It is just like attending an all-day AMSWin training class, only you control the pace. You can watch each section and then go try it, or you can repeat sections over and over until you understand it completely. Learn at your own pace, and become a POWER AMSWin user in 8 hours.

## Volume 1

Introduction
